Receives Messages and Telegrams from Various Countries

Comrade Kim Il Sung, the outstanding Marxist-Leninist and the great Leader of our Party and the 40 million Korean people, received messages and telegrams from various countries of the world.

On behalf of the crew of the Japanese ship "Kaharuzan Maru," Captain Hiroshi Hosotani sent a message to the respected and beloved Leader Comrade Kim Il Sung on the occasion of the significant day of respectfully putting up his portrait on the ship with the feelings of infinite reverence.

Messages came to the respected and beloved Leader also from the members of the "Society for Study of Works of Kim Il Sung" of Japanese scholars who formed it in Tokyo and held the first seminar; the attendants of the inaugural meeting of the "Group for Study of the Great Revolutionary Ideas of Comrade Kim Il Sung" in the Congo; Captain M.S. Butt on behalf of the attendants of the inaugural meeting of the "Group for Study of Works and History of Revolutionary Activities of Premier Kim Il Sung" of the Pakistani ship "Swat"; Captain B. Hasan on behalf of the attendants of the inaugural meeting of the "Group for Study of the Great *Juche* Idea of His Excellency Premier Kim Il Sung" of the crew of the Pakistani ship "Jhelum"; and the members of the "Group for Study of Works of Comrade Kim Il Sung" formed recently in West Berlin.

Comrade Kim Il Sung, the genius Leader of revolution, received messages also from the attendants of the commissioning ceremony of the Petou Match Factory of the People's Republic of the Congo and the attendants of the meeting summing up the yearly work results of the France-Korea Friendship Association. And on the occasion of the week of international solidarity for supporting the national liberation struggle of the Asian, African and Latin-American peoples, messages and telegrams came to him from Bakari Kuiribari, Acting Chairman of the Mauritania-Korea Friendship Association and its Secretary; Atmanne Ould Jerganne, head of the "Group for Study of Works of Premier Kim Il Sung" in Nouakchott, on behalf of the members of the group; the members of the representation of the General Headquarters of the Eritrean Liberation Front in Khartoum, and Antonio Kubillo, General Secretary of the Self-determination and Independence Movement of Canary Islands, in expression of solidarity with the anti-U.S., national-salvation struggle of the south Korean people and young students. And the Pakistan-Korea Friendship Association and Victor L. Mayekisso, chief of the "Group for Study of Immortal Works of Comrade Kim Il Sung" of the African national liberation movement organizations in Cairo, respectively sent him a telegram denouncing the U.S. imperialists and their lackey the Pak Jung Hi puppet clique who brewed a sinister political plot, having detained by force the pilot of the Korean People's Army who inevitably made an emergency landing in the area south of the Military Demarcation Line after losing the course and circling around for a good while on account of the running out of the gasoline during a high-altitude flight practice on December 3 last year.

The message sent to the respected and beloved Leader Comrade Kim Il Sung by Captain Hiroshi Hosotani on behalf of the crew of the Japanese ship "Kaharuzan Maru" reads:

We who study the great ideas and history of the revolutionary activities of Your Excellency Premier send you this message with the honour of putting up Your Excellency's portrait on our ship in reverence for Your Excellency Premier.

Your Excellency are the great Leader of the people who has exerted devoted efforts for the independence of the country and the freedom and liberation of the people, for socialist construction and the reunification of the fatherland, since you embarked on the road of revolution in your early years.

Your Excellency have made a great contribution to the world revolution, too. Indeed, Your Excellency Premier Kim Il Sung are not only the respected and beloved Leader of the Korean people, but also the great Leader of the world revolution, we are sure.

Upholding the great revolutionary ideas of Your Excellency, we will continue to endeavour to do our bit, small as it may be, for the promotion of Japan-Korea friendship, the normalization of Japan-Korea diplomatic relations and for the development of Japan-Korea trade.

The message sent by Captain M.S. Butt on behalf of the attendants of the inaugural meeting of the "Group for Study of Works and History of Revolutionary Activities of Premier Kim Il Sung" of the Pakistani ship "Swat" points out as follows:

The great *Juche* idea founded by Your Excellency and your revolutionary theory of genius based on your 40-odd year long glorious and brilliant revolutionary history constitute the banner of struggle of the people striving to build a new society against imperialism and colonialism and a torchlight which brightly illumines the road ahead of them.

Hoping that the Democratic People's Republic of Korea will achieve still greater, high successes under your great leadership in the socio-economic field, we will do our best to study and more profoundly grasp the great revolutionary ideas contained in your works of genius and the 40-odd year long glorious and brilliant history of your revolutionary activities.

The message sent by the attendants of the commissioning ceremony of the Petou Match Factory of the People's Republic of the Congo, a present from the fatherly Leader Comrade Kim Il Sung to the Congolese people, stressed as follows:

The match factory presented by you soars high in the northern region of the Congo, which has thick ancient forests and a vast expanse of grassland.

We printed on the matchbox the mark of a torchlight symbolizing revolution. This is a symbol of the burning revolutionary will of the Congolese people and an expression of their firm resolve to make a vigorous advance following your great revolutionary ideas.

It is quite natural that today the peoples of the world say with high appraisal: "Heroic Korea," "Korea, a model of socialism" and "Marshal Kim Il Sung, the sun of the 40 million Korean people and one of the outstanding leaders of the world revolution."

Korea which towers imposingly at an outpost in the East shines more radiantly all over and the Korean people are promised a still brighter morrow, for they have as their roots the brilliant revolutionary traditions of the anti-Japanese armed struggle established by you in the 1930's and enjoy your outstanding and sagacious leadership.

The entire Congolese people including the working class scathingly condemn the occupation of south Korea by the U.S. imperialists and their new war provocation manoeuvres and strongly demand that the U.S. imperialists immediately and completely quit south Korea.

Considering that the line advanced by you for reunifying Korea independently in a peaceful way on a democratic principle is the most reasonable and solely just one, we extend all-out support and militant solidarity to the struggle of the Korean people for its realization.

In conclusion, we once again sincerely wish good health and a long life to you, the great Leader of the 40 million Korean people and one of the outstanding leaders of the international communist and working-class movements.

The 40 Million Korean People Will Surely Crush the U.S. and Japanese Aggressors and Their Stooges and Attain the Historic Cause of Country's Reunification by Joint Efforts

Mass Rally of More Than 100,000 Citizens Held in Pyongyang on the "Day of Struggle against U.S. Imperialism"

Under the militant circumstances where they are further intensifying the struggle to realize the complete victory of socialism in the northern half of the Republic and the nation-wide victory of the Korean revolution upholding the great programme set forth by the great Leader of revolution Comrade Kim Il Sung at the historic Fifth Congress of the Workers' Party of Korea, our people observe the "Day of Struggle against U.S. Imperialism" with towering wrath and burning hatred against the U.S. imperialist aggressors, the inveterate enemy.

A Pyongyang city mass rally was held at the Moranbong Stadium on a grand scale on the afternoon of June 25 on the occasion of the "Day of Struggle against U.S. Imperialism."

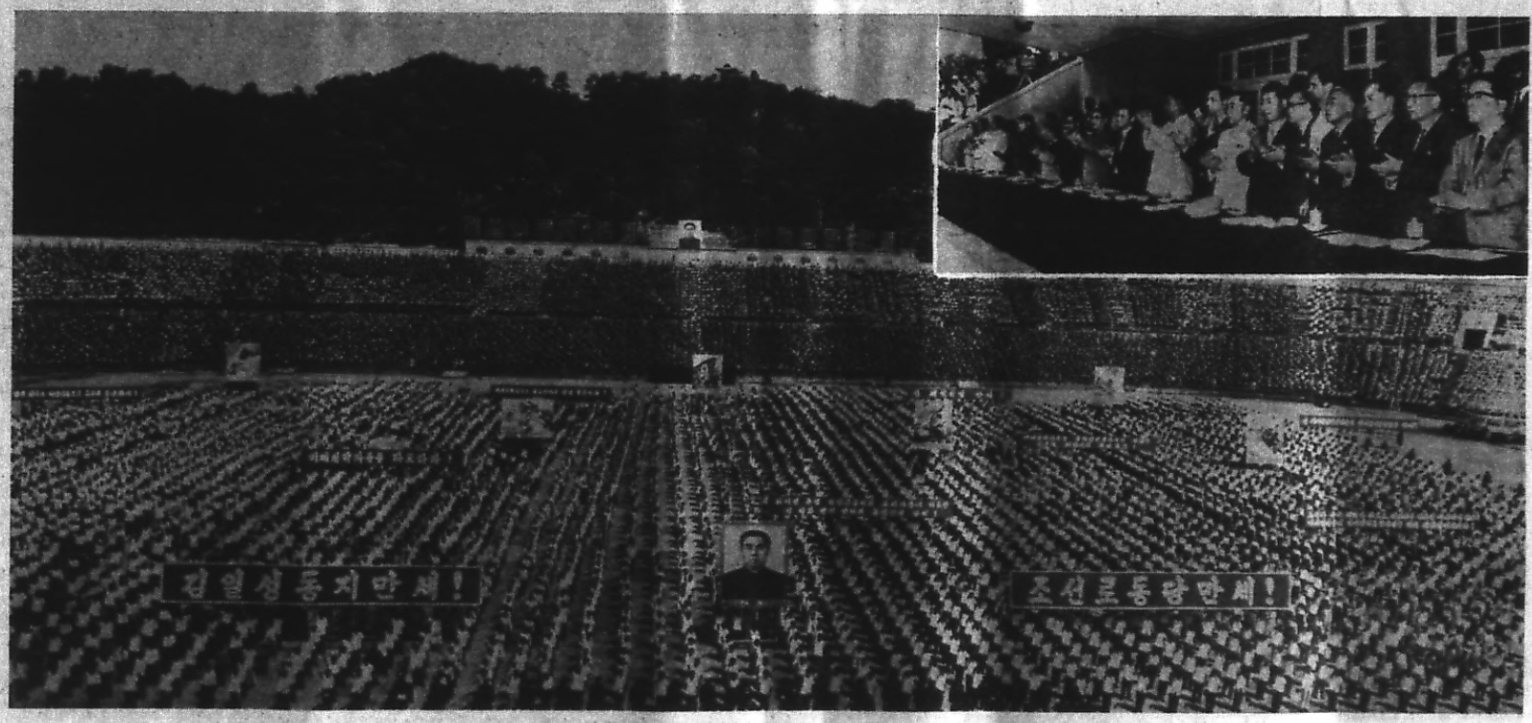
Working people in the capital who turned out to the streets, carrying in the van flags bearing the portrait of the great Leader of revolution Comrade Kim Il Sung and loudly singing revolutionary songs, thronged to the stadium like raging waves, condemning and denouncing with surging indignation the U.S. imperialists, the 100-odd-year-old deadly enemy.

The crowds were holding high the slogans, pictures and placards with the words: "Down with the U.S. imperialist aggressors!" "Down with the traitorous Pak Jung Hi puppet clique!" "We actively support and encourage the south Korean people in their struggle against U.S. imperialism and its stooges Pak Jung Hi puppet clique!" "Let us north and south Korean people join efforts and reunify the divided fatherland without fail!" "Let us resolutely check and frustrate the revival of Japanese militarism and its manoeuvres of overseas aggression!" "Let us mutilate U.S. imperialism everywhere in the world!"

Their sun-tanned faces were all overflowing with the great pride that under the pre-eminent leadership of the Leader they exploded the myth about the "mightiness" of the U.S. imperialists who had boasted of being the "strongest" in the world and compelled the rascals to take an irreversible downhill path and with the high sense of honour that they are the heroic Korean people who performed a pioneer's role in opening up the new era of anti-imperialist, anti-U.S. struggle. Their resounding footsteps fully demonstrated their indomitable mettle to rout and wipe out the U.S. and Japanese aggressors at one stroke if the enemies dare to pounce upon them.

The meeting place where flags of the Republic were fluttering was soon packed to capacity with more than 100,000 people.

Invited to the rally were delegations and representatives of youth organizations from various countries and delegations and representatives of the groups for study of works of Comrade Kim Il Sung from many countries and foreign friends, attending the Sixth Congress of the League of Socialist Working Youth of Korea, and diplomatic representatives of various countries in our country.



The Pyongyang city mass rally marking the "Day of Struggle against U.S. Imperialism"

Respectfully put up in the meeting place was a portrait of Comrade Kim Il Sung, the respected and beloved Leader of the 40 million Korean people, the ever-victorious iron-willed brilliant commander and the genius of revolution.

Red-colored panels bearing the slogans: "Long live Comrade Kim Il Sung!" "Long live the Workers' Party of Korea!" "Long live the unity and cohesion of the whole Party and the entire people based on the *Juche* idea of the great Leader Comrade Kim Il Sung!" and a streamer reading: "Let us firmly arm ourselves with the brilliant revolutionary traditions of our Party!" were seen high above the heads of the multitudes who were filled with a firm determination to keep up a vigorous struggle, generation after generation, along one road of victory led by the Leader, the road of revolution carved out by him, rallied as firm as a rock around him with a single heart to achieve the final victory of revolution—a determination of our people who have raced only along one road of victory and glory through the severe tempest of revolution under the banner of the ever-victorious *Juche* idea.

Having engraved deep on their minds the teaching of the great Leader Comrade Kim Il Sung that "We are striving to prevent war, but we are never afraid of it. If the imperialists jump at us by force of arms, we shall destroy the aggressors to a man so that they may not return home alive," the masses showed to the full that they are fully prepared to come out in the decisive struggle to drive out the U.S. and Japanese aggressors, sweep away their lackeys the Pak Jung Hi puppet clique and accomplish the historic cause of the country's reunification, pooling strength with the fighting south Korean people whenever requested by them.

The crowds were shouting the slogans: "U.S. imperialist aggressors, quit Taiwan, the sacred territory of the People's Republic of China!" "Let us further strengthen and develop the anti-imperialist, anti-U.S. united front of the revolutionary peoples in Asia including the peoples of Korea, China, Viet Nam, Laos and Cambodia!" and they put up a militant picture board showing revolutionary peoples of Asia joining strength to wipe out the U.S. imperialists completely in this region. Seen here and there in the meeting place were streamers reading: "Long live the world revolution!" "Long live the anti-imperialist, anti-U.S. united front of the revolutionary peoples of the whole world!" "Active support and encouragement to the anti-imperialist, anti-U.S. struggle of the peoples of Asia, Africa and Latin America," picture boards depicting the anti-U.S. struggle of the Asian, African and Latin-American peoples and the struggle of the Arab peoples against the U.S. imperialists and the Israeli aggressors, their henchmen, slogans calling for binding the U.S. imperialists hand and foot in all regions and on all fronts of the world and drawings showing that the U.S. imperialists are being mutilated everywhere. The masses thundered slogans, fully demonstrating the feeling of militant solidarity of our people to unite firmly with the revolutionary peoples the world over and give active support and encouragement to their anti-imperialist, anti-U.S. struggle, holding high the revolutionary banner of anti-imperialist, anti-U.S. struggle for the victory of the Korean revolution and the victory of the world revolution.

The platform was taken by Comrades Kim Il, Pak Sung Chul, O Jin U, So Chol, Chong Jun Taek, Yang Hyong Sop and Kim Man Gum; and Kang Ryang Uk, Vice-President of the Presidium of the Supreme People's Assembly and Chairman of the Central Committee of the North Korean Democratic Party; Pak Shin Dok, Chairman of the Central Committee of the Chondoist Chongu Party; Paek Nam Un, Chairman of the Supreme People's Assembly, Tae Byong Ryol, Director of a Department of the Central Committee of the Workers' Party of Korea; Ho Dam, Minister of Foreign Affairs; Kim Byong Ha, Minister of Social Security; Chon Chang Chol, Chairman of the Central Committee of the General Federation of Trade Unions; Li Rim Su, Chairman of the Central Committee of the Union of Agricultural Working People; Kim Si Hak, Chairman of the Central Committee of the League of Socialist Working Youth; Kang Song San, Chief Secretary of the Pyongyang City Committee of the Workers' Party of Korea; Li Sang Son, Chairman of the Pyongyang City People's Committee; Kim Jong Suk, Vice-Chairman of the Central Committee of the League of Socialist Working Youth; Ryu Un Bo, Vice-Chairman of the Central Committee of the Women's Union.

Speech of Comrade Pak Sung Chul

at Pyongyang City Mass Rally Marking the "Day of Struggle against U.S. Imperialism"

(Gist)

Today we mark the "Day of Struggle against U.S. Imperialism" under the militant circumstances where a grandiose struggle is being unfolded to carry out ahead of schedule the magnificent programme of the Six-Year Plan put forth by the historic Fifth Congress of the Workers' Party of Korea and where a fierce flame of the anti-U.S., national-salvation struggle is flaring up in south Korea and the anti-imperialist revolutionary struggle is being vigorously waged everywhere in the world.

On the occasion of the day, the entire Korean people, with a surging hatred and enmity against their sworn enemy U.S. imperialists, are full of a burning determination to drive out the U.S. imperialist aggressors from south Korea and reunify the divided fatherland without fail.

This mass rally is attended by the delegates and friends from the fraternal socialist countries and fighting countries in Asia, Africa and Latin America and from all the continents of the world.

This is a great support to the revolutionary cause of our people.

Entrusted by the Workers' Party of Korea and the Government of the Republic, I express deep thanks to you foreign delegates and friends present at this rally and, through you, to all the countries and progressive peoples of the world that are extending active support and encouragement to our revolutionary cause.

On June 25, 1950, twenty-one years ago, the U.S. imperialists unleashed a brigandish aggressive war in Korea with a view to extending their colonial system established in south Korea to the whole Korea and, further, spreading the flames of war to the Asian continent.

The U.S. imperialists who had incessantly committed aggressive acts and plunder against our country ever since the intrusion of the pirate ship "General Sherman" more than a hundred years ago, rushed to the Korean front more than two million of aggressive troops including mercenaries of their satellite countries and the puppet army plus a huge volume of up-to-date combat material and technical equipment and employed all available methods and means of war unprecedented in history in order to attain their sinister aim of aggression.

All the criminal atrocities perpetrated by the U.S. imperialist aggressors in the Korean war clearly show that U.S. imperialism is the most shameless aggressor of modern times, the cannibal of the 20th century and the most vicious enemy of mankind.

With no frantic machinations, however, could the U.S. imperialists bring the Korean people to their knees and realize their aggressive ambitions.

Under the distinguished leadership of the great Leader Comrade Kim Il Sung our people rose up as one in the sacred struggle for repulsing the U.S. imperialist aggressors.

At this grim juncture the Chinese people dispatched their Volunteers to assist our people with blood and the socialist countries including the USSR and all the peace-loving peoples throughout the world rendered active support and encouragement to our just struggle.

The Korean people, under the unanimous support and encouragement of the world people, waged a heroic struggle and crushed the U.S. imperialist aggressors and thus won a great victory in the Fatherland Liberation War.

The historic victory of the Korean people in the Fatherland Liberation War fully demonstrated the political and ideological unity of our people closely rallied as one around the Party and the Leader and showed that no force can conquer a people who have risen for the freedom, independence and progress of the country, firmly holding their destinies in their own hands.

By winning the great victory in the Fatherland Liberation War, our people punctured the arrogance of the U.S. imperialists who had boasted of being the "mightiest" in the world, and thus started them skidding along a downhill path and warned the enemy not to run wild recklessly.

The U.S. imperialists, however, far from drawing a lesson from the ignominious defeat they sustained in the Korean war, have persisted in their scheme to provoke a new war of aggression in Korea, in flagrant violation of the Armistice Agreement, leading the situation closer to the brink of war in recent years.

Comrade Kim Il Sung, the great Leader, pointed out:

"The situation in our country is still acute and tense. The aggressive manoeuvrings of the U.S. imperialists are being further intensified and their plots to provoke another war are becoming more undisguised."

Behind the smokescreen of the deceptive "cutback of U.S. troops" under the name of the notorious "Nixon doctrine," the U.S. imperialists have brought again into south Korea many wings of fighter-bombers and formations of tactical planes, organized an "emergency task force" to deploy it in the sea off our country, thus reinforcing their air and naval forces; they have even established a "system of airlifting operation" for hurling into south Korea a large force of aggression troops from the U.S. mainland at any time.

Besides, the U.S. imperialists have augmented the south Korean puppet army in a big way and now push ahead with its modernization; they are pressganging numerous young and middle-aged people into the "homeland reserve force" and hurrying up with its complete armament.

While perpetrating military espionage by sending their armed spy ships, large-size spy planes and high-altitude reconnaissance planes one after another deep into the territorial waters and air space of our country the U.S. imperialist aggressors and the Pak Jung Hi puppet clique are committing various hostile acts of provocation almost daily, such as armed attacks, rifle-shooting and gun-firing in the areas along the Military Demarcation Line, and infiltrating many armed spies continuously into the northern half of the Republic. The cases of those violations of the Armistice Agreement by the U.S. imperialist aggressors exceeded 3,850 in five months of this year alone.

The U.S. imperialists are further aggravating the situation by actively drawing revived Japanese militarism into the execution of their aggressive policy against Korea and Asia.

At present, the U.S. imperialists are resorting to more insidious scheme to achieve their aim of Asian aggression chiefly by means of "making Asians fight Asians" through the mobilization of their Asian satellites and puppets including the Japanese militarists. Meanwhile, the Japanese militarists, taking advantage of this "new Asia policy" of U.S. imperialism, are making desperate efforts to dominate Korea and realize their old dream of "Greater East Asia Co-prosperity Sphere."

The "agreement" on the "return of Okinawa" recently concluded between the U.S. imperialists and the Japanese militarists is an attempt to materialize in a concrete way the aggressive line set forth in the U.S.-Japan "joint statement" which declared the intention to involve the militarist forces of Japan directly in Asian aggression to use them as "shock force" for aggression; it also furnishes a striking evidence that the military-political tie-up between the U.S. and Japanese reactionaries has entered a new grave stage.

By "legalizing" the occupation of Okinawa by U.S. imperialism and turning the U.S.-Japan "joint statement" into a treaty, this "agreement" provided the possibility of converting Japan proper, like Okinawa, into a nuclear base of aggression on Asia including Korea and China and embroiled the Japanese militarists more deeply in the U.S. imperialists' plan for an aggressive war, paving a new way of Asian aggression for them.

In this way, the U.S. imperialists have strengthened all the more the tie-up among the Japanese militarists and the Pak Jung Hi and Chiang Kai-shek puppet cliques and enabled the Japanese militarists to further step up their military expansion towards the territories of Korea and China.

This proves that the so-called "agreement" on the "return of Okinawa" is a sinister military and political intrigue of the U.S.-Japanese reactionaries for Asian aggression and a direct menace to the security of our country and other Asian socialist countries.

These days, the Japanese reactionaries never open their mouth without clamouring that Japan should play the "leading role in Asia." They are now hatching a plot to send their forces of aggression abroad, having drawn up extremely adventurous war plans for invading Korea and other Asian socialist countries. Some time ago, they openly declared the vast area of Asia including Korea and China to be an area of their operation by bringing forward the claim that the "area 1,000 nautical miles around Tokyo" should come under the "sphere of defence."

The Japanese militarists have already started making an inroad into south Korea, frequently stage "joint military exercises" with the U.S. imperialists at the threshold of our country and keep sending groups of officers of their "self-defence forces" to south Korea on the plea of "mutual exchange of military service" and so on.

All developments of today urgently demand the peoples of Korea and China and the peoples of all other revolutionary countries in Asia further to strengthen the anti-imperialist, anti-U.S. united front and wage a more powerful anti-U.S. joint struggle so as to curb the U.S. imperialist aggression on Asia and thoroughly foil the Japanese militarist scheme for overseas aggression.

The collusion between the U.S. imperialists and the Japanese militarists in their frantic attempt to realize their aggressive ambition against Korea and the rest of Asia is but a day-dream.

Comrade Kim Il Sung, the great Leader, taught:

"Asia today is not the backward Asia of yesterday.... The Asian people have now grown into a great revolutionary force of our times that carries imperialism and colonialism to their graves."

Today our Party and the entire people are firmly united and rallied with one idea and one will on the basis of the Marxist-Leninist ideological system of *Juche* and our country has been turned into a powerful socialist industrial state with complete political sovereignty, solid independent economy and strong self-defence power.

The might of the People's Republic of China has grown further, the furious flames of the liberation struggle of the Vietnamese and other peoples of Indochina are raging as an irresistible force and the revolutionary consciousness of the Japanese people is rising still higher.

The progressive peoples of all continents of the world resolutely denounce U.S. imperialism for its aggressive manoeuvrings against Korea and Asia and actively support and encourage our revolutionary cause.

The U.S. imperialists and their lackeys must look straight at the reality and must not act rashly.

The U.S. imperialists must withdraw unconditionally and completely from south Korea, Taiwan, south Viet Nam, Laos, Cambodia and all other areas of Asia where they have set foot, taking their aggressor troops and lethal weapons with them, and the Japanese militarists must immediately desist from their aggressive manoeuvring against the Korean and other Asian peoples.

If the U.S. imperialists and the Japanese militarists enter the road of another reckless war of aggression in Korea and Asia in defiance of the warnings of the Korean people and the Asian peoples, they will meet their final doom in face of the heroic struggle of our people who enjoy the unanimous support of the world peoples and the united revolutionary forces of the Asian peoples.

The occupation of south Korea by U.S. imperialism and its colonial rule are the main obstacle to the reunification of our country. The U.S. imperialists and the south Korean puppet clique have turned down all our fair and just proposals for national reunification that the country be reunified according to the independent will of the Korean people on a democratic principle in a peaceful way without any interference of outside forces after the withdrawal of the U.S. imperialist aggressor troops from south Korea. And they have persistently opposed the peaceful reunification of the country.

Arch-traitor Pak Jung Hi, the dual stooge of the U.S. and Japanese reactionaries, who assumed the "presidency" again through the recent unheard-of murderous, fraudulent election, and his ilk are suppressing more brutally the struggle of the south Korean people for the right to existence, democratic freedom and the country's reunification.

In order to accomplish the cause of national reunification we must drive out the U.S. imperialist aggressors from south Korea, liquidate their colonial rule and overthrow the present puppet regime in south Korea.

When the U.S. imperialist aggressors are withdrawn from south Korea and democratic personages with national conscience come to power or people's power is set up, the peaceful reunification of our country will be realized.

The question of reunifying our country is an internal affair of our nation in which no outside forces can interfere.

The UN must at once repeal all the unlawful resolutions it adopted with regard to the "Korean question" and dissolve without delay the "UNCURK" which is playing the role of a spot servant of U.S. imperialism.

The entire people of north and south Korea will unite firmly as one and fight vigorously and thus decidedly crush the colonial military fascist rule and nation-splitting policy of U.S. imperialism and its lackeys and accomplish the cause of the country's reunification without fail.

U.S. imperialism is the most heinous and shameless aggressor and marauder of modern times and the common enemy No. 1 of all the progressive peoples of the world.

Today no task is more oressing than to struggle against the U.S. imperialist policy of aggression and war in the international arena.

Only through a resolute struggle against U.S. imperialism can world peace be safeguarded and national liberation and independence, the victory of the cause of democracy and socialism be achieved.

The great Leader Comrade Kim Il Sung taught:

"The peoples of revolutionary countries in Asia, the Palestinian people and other fighting Arab peoples, the African and Latin-American peoples fighting for freedom and liberation and all the revolutionary peoples of the world should be firmly banded together to deal blows at U.S. imperialism and dismember it."

The U.S. imperialists are making a show of power now, but when the peoples of all the revolutionary countries of the world join in dealing a joint blow to them, bringing pressure to bear upon them and mutilating them, they will become impotent and bite the dust in the end.

Our Party and people will continuously wage a vigorous struggle against the imperialists headed by the U.S. imperialists and do everything in their power to further strengthen the militant solidarity with the peoples of all countries opposing imperialism and colonialism.

Our Party and people trenchantly condemn the U.S. imperialist aggressive manoeuvres against Indochina, resolutely support the Vietnamese, Laotian and Cambodian peoples in their struggle for national salvation against U.S. imperialism and give an active support to the Chinese and Japanese peoples and all the revolutionary peoples in Asia in their struggle against U.S. imperialism and Japanese militarism.

Our people resolutely support the Arab peoples in their struggle against U.S. imperialism and Israeli aggressors, resolutely support the Cuban people in their heroic struggle and resolutely support the African and Latin-American peoples in their struggle for freedom and liberation, and express solidarity with the European peoples in their struggle against the exploitation by capital and the imperialist aggression and war policy.

In the future, too, as in the past, our Party and people, holding aloft the banner of Marxism-Leninism and proletarian internationalism, the revolutionary banner of the anti-imperialist, anti-U.S. struggle, will continue to fight vigorously for the victory of the cause of peace and democracy, national independence and socialism in unity with the peoples of the socialist countries, in unity with the peoples of Asia, Africa and Latin America and in unity with all the peace-loving peoples of the world.

Comrade **Pak Sung Chul**, Member of the Political Committee of the Central Committee of the Workers' Party of Korea and Second Vice-Premier of the Cabinet, made a speech at the rally.

Then a speech was made by Comrade **Kim Ik Hwan**, head of the delegation of the south Korean revolutionary youth organization.

He said:

Allow me, first of all, to extend warmest congratulations and deepest thanks, representing the ardent loyalty of the youth, students and people of the southern land, to Premier Kim Il Sung, the sun of our nation of 40 million, the genius of revolution, peerless and outstanding military strategist, who opened a new, revolutionary-historic age of the anti-imperialist, anti-U.S. struggle and always leads the south Korean youths, students and people along the highway of victorious struggle against U.S. imperialism and for national salvation.

He quoted the teaching of Premier Kim Il Sung, the genius Leader of the revolution: **"The situation is very tense and dangerous conditions have been created in our country, where war may be unleashed by the U.S. imperialists even tomorrow or the day after."**

He dwelt in detail upon the fact that the U.S. imperialists, instead of drawing a lesson even after their crushing defeat in the Korean war, are getting more frantic in their hysteric drive for the provocation of a new war in our country behind the signboard of the notorious "Nixon doctrine."

In the name of the south Korean youths and students and people, he denounced the U.S. and Jananese aggressors and the Pak Jung Hi gang, a pack of stooges.

Recalling the fact that the U.S. imperialist aggressors ran like mad to descend on the northern half at any moment, striking up the dirge of the armed spy ship "Pueblo" and the spy plane "E.C.-121," the speaker said:

Indeed, how did Korea assume her posture just at the time when the world's attention was focussed on her?

At that time, Premier Kim Il Sung, the ever-victorious iron-willed brilliant commander, curbed the war hysteria of the rascals with a stern bomb-like declaration and he was giving an on-the-spot guidance to a chicken farm on the outskirts of Pyongyang, the capital, for the betterment of the people's livelihood and the state budget was being examined at the Mansudae Assembly Hall in Pyongyang in the presence of the Leader for accelerating socialist construction.

When the U.S. imperialist warmaniacs bowed their heads before this calm and mighty stately posture of the northern half of the fatherland and the world was struck with wonders, the hearts of the south Korean youths and students and people beat high with the great pride of living under the guidance of the great Leader and they felt a surge of strength rushing over them to crush the enemy.

Who on earth can dare attack the northern half of the Republic that stands imposingly as an impregnable fortress, united as firm as a rock around the great Leader?

Along the highway of the south Korean revolution clearly indicated by Premier Kim Il Sung, the sun of the nation, we will raise a stormy wind of revolution and pour a crushing gun-fire on the heads of the U.S. imperialist aggressors who are driving the south Korean people into a human hell and bloodbath, and we will thwart and frustrate the new war provocation manoeuvres of the beasts and determinedly drive them away by all means.

We will throw the revived Japanese militarists, who are again crawling into our southern land with a great zeal into the raging East Sea of Korea to the last man.

Our south Korean youths and students and people will condemn to the stake, most sternly, the gang of Pak Jung Hi, the heinous traitor for all ages reared with the excrement of the U.S. and Japanese aggressors, in the name of our comrades-in-arms who shed blood and in the name of all the people of the southern land who fell under oppression and in hunger.

We will thus set up power of the people in a land cleared of the aggressors and the traitors and achieve the independent reunification of the fatherland and will sing happiness for many, many years in the bosom of Premier Kim Il Sung, the respected and beloved Leader, in a reunified land.

Invincible is the revolutionary cause of the south Korean youth and people who are holding high as the banner of revolution the immortal *Juche* idea of Premier Kim Il Sung, the peerless hero and the red sun of revolution!

Then foreign guests made speeches.

Extending the militant greetings of the World Federation of Democratic Youth to the Korean youth and students who are fighting against U.S. imperialism and for the country's peaceful reunification, Comrade **Angelo Oliva**, President of the World Federation of Democratic Youth and head of its delegation, expressed militant solidarity with and active support for the just struggle of the Korean people.

The speaker went on:

We call for the militant unity of all the progressive youth of the world against imperialism.

When all the anti-imperialist forces unite, imperialism will surely go to ruin.

Under the correct leadership of Comrade Kim Il Sung the Korean people and the People's Army, successfully overcoming hard ordeal of the war, smashed to pieces the myth about the "mightiness" of U.S. imperialism and shattered the aggressive attempt of U.S. imperialism against the socialist countries and thereby firmly defended the eastern outpost.

The speaker denounced the U.S. imperialists who, despite their shameful defeat in the Korean war, are speeding up preparations for a new war, while tightening their colonial rule in south Korea and persistently opposing the peaceful reunification of Korea. The danger of new war, he pointed out, has become more serious, because the U.S. imperialists are inveigling even the revived Japanese militarists into their war plots.

He resolutely demanded the immediate withdrawal of the U.S. imperialist aggressor troops from south Korea and went on to say:

We fully support the just line of the Democratic People's Republic of Korea for the peaceful reunification of the country and the eight-point programme put forth by the recent session of the Supreme People's Assembly of the Democratic People's Republic of Korea.

We actively support the just struggle being waged by the south Korean youth and students against bestial fascist suppression and for the release of the arrested and detained students.

On the occasion of the month of international solidarity with the Korean people and youth, we call upon all the progressive youth organizations of the world to organize extensive activities of solidarity in diverse forms.

In conclusion the speaker expressed the conviction that the Korean people and youth rallied rock-firm around Comrade Kim Il Sung, the great Leader of the Workers' Party of Korea and the Korean people, would surely win final victory in the sacred cause for the immediate withdrawal of U.S. imperialism from south Korea and the independent, peaceful reunification of the fatherland.

Comrade **Dusan Ulcak**, Chairman of the International Union of Students and head of its delegation, said:

The IUS calls on all the national organizations of all countries to undertake the international campaign to energetically demand the immediate withdrawal of the American imperialist aggressive troops from south Korea which constitute the fundamental obstacle to the reunification of Korea and the basic source of permanent tension in that country.

The progressive students all over the world energetically condemn the criminal manoeuvres of the Pak Jung Hi puppet clique in south Korea and his barbarous repression on the people, youth and students of south Korea fighting now against fascist dictatorship, against militarization of education, for reunification of the country and for the democratization of social life.

In our opinion, the point of the departure for preserving peace and security in Asia is the withdrawal of all U.S. imperialist forces from Asia.

The progressive students of the world energetically protest against daily provocations committed by the American imperialists in the interest of provoking a new war in Korea and condemn them as a serious threat to peace in Asia and throughout the world.

We have no doubt that under the wise leadership of the Workers' Party of Korea headed by Marshal Kim Il Sung, General Secretary, the victory of the Korean people in their struggle for the independent, peaceful reunification of their country is certain.

Comrade **Kuo Hung-chieh**, Alternate Member of the Central Committee of the Communist Party of China and Deputy Secretary of the Anhwei Provincial Committee of the Party, and head of the Chinese youth delegation, said that through the three-year-long sanguinary fight the Korean people not only upheld the independence of their country but also frustrated the U.S. imperialists' ambitious scheme to invade China and dominate the world and greatly contributed to the anti-U.S. revolutionary struggle of the peoples the world over, and went on to say:

The great victory in Korea's Fatherland Liberation War set a shining example that a small country can defeat a big country and immensely inspired the anti-U.S. revolutionary struggle of the oppressed nations and peoples.

I avail myself of this opportunity to express our loftiest respect to Comrade Premier Kim Il Sung, the great Leader of the Korean people, to the glorious Workers' Party of Korea and the Korean government and to the heroic Korean people and youth.

The Chinese people, together with the Korean people, Indochinese peoples, Japanese people and other Asian peoples, resolutely oppose the aggressive manoeuvres of U.S. imperialism and Japanese militarism, strongly support the south Korean people in the struggle against the U.S. imperialists and the Pak Jung Hi puppet clique and determinedly support the just struggle of the Korean people for the peaceful reunification of their country and the just stand and eight-point programme of the Workers' Party of Korea and the Korean government for national reunification.

Two countries, China and Korea, are the neighbours closely related like lips and teeth and their peoples are comrades-in-arms in the same boat.

No matter what may come in the world, the Chinese people and youth will firmly unite with the fraternal Korean people and youth forever and fight together and win together.

People of the whole world, unite and defeat the U.S. aggressors and all their lackeys!

Long live the militant friendship sealed with blood between the peoples of the two countries, China and Korea!

Long live the heroic Korean people!

Long live Comrade Kim Il Sung, the great Leader of the Korean people!

In her speech Comrade **Ta Thi Kieu**, Member of the Central Committee of the South Viet Nam Youth Union for Liberation and Heroine of the South Viet Nam People's Liberation Armed Forces, and head of the delegation of the union, recalled the fact that 21 years ago the U.S. imperialist aggressors unleashed an aggressive war in Korea and said:

Under the wise leadership of the Workers' Party of Korea led by respected and beloved Marshal Kim Il Sung, the heroic Korean people who inherited the glorious revolutionary traditions of the anti-Japanese armed struggle, united as one, fought very valiantly displaying ever-victorious spirit and revolutionary mass heroism, enjoying powerful support of the fraternal socialist countries and the progressive people of the world, and thereby dealt mortal blows to the U.S. imperialists and their stooges, won a brilliant victory of weighty historic significance, compelled the enemies to conclude the Korean Armistice Agreement and inflicted a shameful defeat upon the U.S. imperialists for the first time in their history of aggression.

This brilliant triumph, as a grand epic of the unbending fighting spirit of the Korean people for the freedom and independence of their country, served as a splendid example encouraging the anti-U.S. struggle of the Asian, African and Latin-American peoples and made a contribution to preserving peace in Asia and the rest of the world.

Together with the peoples throughout the world, the south Vietnamese people scathingly denounce the U.S. imperialists and Japanese militarists for their policies of aggression and war in Korea and demand the immediate withdrawal of the U.S. imperialist aggressor army from south Korea so that the Korean people may settle independently for themselves Korea's internal affairs without any outside interference.

The south Vietnamese youth and people will energetically continue the anti-U.S. national-salvation war of resistance until they win the final victory, uniting with the compatriots in the north with one mind and will and conducting concerted operations with the fraternal Laotian and Cambodian peoples, and will make a clean sweep of the U.S. imperialist aggression army from their beloved country without fail, she stressed.

In conclusion, she sincerely wished Premier Kim Il Sung good health and a long life and fresh greater victory in the cause of leading the struggle of the Korean people for the construction of the country and national reunification.

Comrade **Nabil Quilat**, Vice-President of the General Union of Palestine Students and head of its delegation, first of all, extended, on behalf of the Palestinian students and youth, militant greetings to Comrade Kim Il Sung, the respected and beloved, great Leader of the 40 million Korean people.

He expressed admiration and respect for the Korean people who have won great victories in a short span of time and noted that the Korean people who defeated Japanese imperialism and liberated their country are now successfully carrying out the revolution, guided by the *Juche* idea founded by Comrade Kim Il Sung.

Then he exposed and condemned the fact that the U.S.-led imperialist forces are increasing their military, political and material aid to the Israeli reactionaries.

He quoted the teaching of the great Leader Comrade Kim Il Sung:

"It is under the very cloak of 'peace' that the U.S. imperialists carry out barbarous wars of aggression against the progressive peoples and it is also under the cloak of 'peace' that they intensify their manoeuvrings to soften up other countries ideologically and politically.

"U.S. imperialism is the most ferocious and shameless aggressor and plunderer of modern times and the principal common enemy of all progressive peoples of the world."

He said that the progressive forces of the whole world should spearhead their attack against U.S. imperialism and limb and behead it everywhere in the world in unity.

Comrade **Guarani Pereda de Rose**, Alternate Member of the Central Committee of the Socialist Party of Chile, Member of the Political Commission of the Federation of the Socialist Youth of Chile, and head of the delegation of the federation, pointed out that the U.S. imperialists imposed an aggressive war upon the Korean people on June 25, 1950, with a wild ambition of expanding the sphere of their rule and stamping out the struggle for building a happy society in the Democratic People's Republic of Korea, but the Korean people under the correct guidance of Supreme Commander General Kim Il Sung answered the barbarous aggressive war of the imperialists with a just war of liberation.

The speaker went on:

The entire Korean people—the fighters tempered through the anti-Japanese armed struggle, the youth who love the brilliant future, workers, peasants, women, children and the aged—won ope victory after another without bringing to naught the sufferings undergone and the blood shed by tens of thousands of patriots who readily gave their lives for the freedom and liberation of the people and for socialism.

On July 27, 1953, the U.S. imperialists bowed to the Korean people and sustained an irretrievable defeat.

The speaker stated that the history of Latin America is a history of unending aggression by U.S. imperialism and the red flag of revolution will be planted firmly in his country, and went on:

The U.S. imperialists regard our unshakable militant determination as a thorn in the flesh and threaten us at all times.

The Chilean people will frustrate the heinous machinations of U.S. imperialism.

Extending firm support and solidarity to the Korean people in their just struggle, the speaker declared that under the correct leadership of the great respected Leader Comrade Kim Il Sung the Korean people will drive the U.S. imperialists out of south Korea, emerge victorious and build socialism throughout Korea by inheriting the revolutionary traditions established in the heroic struggle.

As the meeting proceeded, many foreign friends on the stands found themselves unable to keep back the enmity against the foe U.S. imperialism and shouted, now in their mother tongues and then in Korean, at the top of their voices: "U.S. imperialism, quit south Korea!" "Down with U.S. imperialism!" "Long live the Revolutionary Party for Reunification!" "Long live international solidarity!" and "Long live victory and progress!"

Concluding their speeches, many foreign friends exclaimed aloud "Long live the great Leader Comrade Kim Il Sung!" out of irresistible adoration of Comrade Kim Il Sung, the great Leader of the revolution.

Each time there were prolonged cheers of "Long live Comrade Kim Il Sung!" among the crowds and foreign friends on the stands.

The rally adopted an appeal addressed to the south Korean people on the "Day of Struggle against U.S. Imperialism."

The rally closed with the playing of the Patriotic Song.

Guide and Action Programme for Youth Movement

Speech of the Respected and Beloved Leader Comrade KIM IL SUNG at Sixth LSWY Congress "The Youth Must Take Over and Carry Forward the Revolution" Calls Forth Widespread Response among Youth in Various Parts of Our Country

The Sixth Congress of the League of Socialist Working Youth of Korea which will mark a new milestone in the development of the youth movement is now successfully proceeding amidst the great interest and hope of all the young men and women and the entire people of our country and with the warm support and congratulation of the revolutionary youth and progressive peoples in foreign lands.

Comrade Kim Il Sung, the respected and beloved Leader of our Party and the 40 million Korean people, founder of the League of Socialist Working Youth of Korea, pre-eminent Leader of the youth movement and benign father of the youth, personally attended the fourth-day session of the Congress on June 24 and delivered the historic speech "The Youth Must Take Over and Carry Forward the Revolution" which will serve as a programmatic guide for the development of the youth movement.

The delegates to the Congress who had a great honour of seeing close at hand the great, benign fatherly Leader whom they had been longing to see, awake or asleep, and received and bore deep in their minds his programmatic teaching and the youth in different parts of our country who listened to the Leader's speech on radio and television are now filled with unbounded happiness and high revolutionary enthusiasm.

They evinced their adamant resolve to discharge with credit the historic mission assigned to them holding high the banner of the great *Juche* idea of the Leader and thus repay with loyalty the deep love and great expectations of the respected and beloved Leader Comrade Kim Il Sung.

Comrade Han Chang Hui, leader of the twice Chollima youth work team in the Chollima Huichon Machine-tool Plant, said that he was immensely moved by the speech of the fatherly Leader Comrade Kim Il Sung in which he showed a profound love for and put a great trust in the youth, and continued:

In his historic speech, the great Leader Comrade Kim Il Sung, the genius of revolution, brilliant theorist and pre-eminent Leader of the youth movement, correctly defined the position and role of youth in social development and brilliantly elucidated the historic mission of the communist youth movement and the ways for its fulfilment.

In his historic speech the respected and beloved Leader codified and further perfected and enriched all the original ideas and theories on the youth movement and youth problem which he had already founded embodying his great *Juche* idea in the youth work, and the speech serves as a guide and action programme for the youth movement. Since he set out on the road of revolution in his early years, the respected and beloved Leader Comrade Kim Il Sung had considered the youth to be the most vivacious and strongest force in social revolution and organized and guided the youth work at all times in the period of his early revolutionary activities and in the years of arduous anti-Japanese armed struggle. After liberation, he founded the Democratic Youth League on the basis of historic roots of the Korean youth movement formed in the thick of the anti-Japanese armed struggle and has strengthened and developed it into the powerful League of Socialist Working Youth as we see today.

The fatherly Leader has firmly equipped our youth with the unitary ideology of the Party and stoutly reared them into the successors to the revolutionary traditions who would carry on the cause of the Workers' Party, into young communist fighters boundlessly faithful to the Party and the revolutionary cause, in the crucible of fierce class struggle and arduous struggle for revolution and construction.

That is why the history of the LSWY is the history of the wise guidance of the great Leader Comrade Kim Il Sung over the LSWY work and is the history of his warm love for our younger generation.

Pointing to the fact that already at the beginning of this year the fatherly Leader came down to see the workers in Huichon and lit the great beacon-fire of new technical innovation, he went on to say:

Holding high the beacon-fire of new technical innovation lit by the respected and beloved Leader, we Red young machine-building workers in Huichon have automated the production processes and boldly reorganized the production system as a whole, and made great strides in production. Thus we are now splendidly bringing into effect our resolve to turn out 10,000 machine-tools by April 15 next year and exceed 1.5 times the level of production envisaged in the end of the Six-Year Plan.

We young workers at the Chollima Huichon Machine-tool Plant will more firmly arm ourselves with the great revolutionary ideas of the Leader, the unitary ideology of the Party, and actively participate in the organizational life of LSWY to steadily revolutionize ourselves. Thus we will prepare ourselves more firmly as members of the guard detachment and death-defying corps who are ready to protect and defend the Leader with their lives politically and ideologically and bear the brunt of difficult and arduous work at all times, smash all sorts of mystery about technique and conservatism, make uninterrupted innovation and continuous advance and work still fresher miracles.

We, members of the youth shock brigade, pledge ourselves once again to undertake and carry out the most difficult and arduous work in our factory, and make the streamlines of production in the casting workshop to produce a sufficient amount of casting materials needed for the production of 10,000 machine-tools, in order to manufacture 10,000 machine-tools by April 15 next year without fail and make a report of loyalty to the Leader.

Kim Chang Jin, chairman of the LSWY committee of the Chollima Pongdae Co-op Farm in Chongpyong county, South Hamgyong Province, said that hearing the historic speech of the respected and beloved Leader Comrade Kim Il Sung, he felt immense pride in and honour of being one of the Korean youth, the generation who make revolution under the guidance of the great Leader, and continued:

In his historic speech, the respected and beloved Leader spoke highly of the beautiful traits of our youth and the revolutionary mettle of the heroic Korean youth and said that **"Our Party and people are very happy and proud that they have such fine youth."**

For our youth, it is the greatest honour to receive the high appraisal of the great Leader of revolution Comrade Kim Il Sung; it is the greatest happiness to work and fight, enjoying the deep trust and great expectations of the Leader.

Bearing in our hearts the speech of the respected and beloved Leader Comrade Kim Il Sung that will serve as a great programmatic guide originally illumining the road ahead of the youth movement under socialism, we youth will take the lead in the difficult and arduous work and give the fullest play to our strength and wisdom and discharge with credit the lofty mission assigned to us as the vanguard and shock force of socialist construction, and thus bring about a new, great upsurge in agricultural production. We will gather in the best harvest this year and brace ourselves up for consolidating the successes in irrigation and electrification and perfecting mechanization and chemicalization to carry out with honour the tasks advanced by the respected and beloved Leader in his "Theses on the Socialist Rural Question in Our Country."

In conclusion, he said that our youth would keep up a tense and mobilized stance to cope with the prevailing situation and, together with the entire people, firmly defend our farms and socialist fatherland and more vigorously expedite socialist construction, with a rifle in one hand and a hammer and a sickle in the other.

Invited to see the mass display were delegations and delegates of various countries attending the Sixth Congress of the League of Socialist Working Youth of Korea.

Also invited were diplomatic representatives of various countries and foreign guests in our country.

With the prologue "Glory to the Fatherly Leader," the mass display admirably depicted with varied rhythmical movements and gymnastic formations the immortal feats of the great Leader Marshal Kim Il Sung who organized and led the glorious anti-Japanese armed struggle and restored the fatherland and, in the thick of this struggle, established the brilliant revolutionary traditions of our Party and, on this basis, founded our Party after liberation and has strengthened and developed it into an ever-victorious revolutionary Party firmly based on the ideological system of *Juche*, into a steel-strong Party commanding the absolute trust of the people.

The performers gave an extensive and profound description of the fact that the respected and beloved Leader Comrade Kim Il Sung, basing himself on the strong roots of the Korean youth movement he had grown during the glorious anti-Japanese armed struggle, founded the Democratic Youth League, brightly illumined the path ahead of the youth in each period and at each stage of the revolution, developed the Democratic Youth League into the League of Socialist Working Youth in compliance with the requirement of the development of the revolution, reared the young people into indomitable communist fighters and brought happiness to them.

The mass display also presented a vivid, epical picture of the struggle of our youth and people who have risen to carry through the militant programme advanced by the respected and beloved Leader Comrade Kim Il Sung at the historic Fifth Congress of the Workers' Party of Korea and it gave a fine portrayal of the revolutionary zeal and fighting spirit of our people who actively support and encourage the anti-U.S., national-salvation struggle of the south Korean people, youth and students and strive to accelerate the south Korean revolution and bring earlier national reunification. It well showed the firm determination of our people who, holding aloft the banner of Marxism-Leninism and proletarian internationalism, make all efforts to cement friendship and solidarity with the peoples and youths of socialist countries and, at the same time, strengthen friendship and solidarity with the Asian, African and Latin-American peoples and youths to crush U.S. imperialism and Japanese militarism and their lackeys and expedite the triumph of the world revolution.

The mass display closed with the scene sincerely wishing good health and a long life to Marshal Kim Il Sung, the respected and beloved Leader of the 40 million Korean people.

The mass display "Under the Banner of the Workers' Party" which brought out through a grand epical delineation the monolithic unity and cohesion of the whole Party and the entire people based on the *Juche* idea of the great Leader Comrade Kim Il Sung and their invincible might, evoked deep emotion among the spectators and received their loud applause and cheers over and over again for its deep-going political and ideological contents, high artistic value and well-organized and highly-disciplined performance.

That evening the delegates of provinces (or cities under central authority) to the Sixth Congress of the LSWY and foreign guests saw at the Pyongyang Grand Theatre the music and dance epic "Glorious Is Our Fatherland," a People's Laureate, which was performed by 3,000 artistes in the city in celebration of the Sixth Congress of the LSWY.

Appeal to the South Korean People

An appeal to the south Korean people was adopted by the mass rally held in Pyongyang on June 25, the "Day of Struggle against U.S. Imperialism."

The appeal, to begin with, pointed out that the U.S. imperialists unleashed a brigandish war of aggression in Korea on June 25, 1950, 21 years ago, and referred to the fact that the Korean people under the sagacious leadership of the respected and beloved Leader Comrade Kim Il Sung, the ever-victorious iron-willed brilliant commander and military strategist-genius, achieved a historic victory in the war.

The appeal laid bare and denounced the fact that the U.S. imperialists are carrying on more frantically machinations for aggression and provocation of a new war behind the smokescreen of the farce of so-called "cutback of U.S. army" staged under the signboard of the notorious "Nixon doctrine."

The appeal said that the U.S. imperialists have further aggravated the situation by using the Japanese militarists as a "shock force" in pursuing their policy of aggression and war in Korea, and pointed out that especially the so-called "agreement on the reversion of Okinawa" rigged up of late is aimed at furthering the aggressive conspiracy and collaboration between the U.S. imperialists and Japanese militarists for their joint aggression against Korea, China and other Asian countries.

Noting that owing to the manoeuvrings of U.S. imperialism and its stooges for triggering another war a tense situation similar to that in 1950 when the U.S. imperialists ignited the Korean war has been created in our country today and it is fraught with a constant grave danger of a war breaking out at any moment, the appeal resolutely condemned with surging national indignation the U.S. imperialist aggressors, the Japanese militarists and the Pak Jung Hi puppet clique for desperately manoeuvring to provoke another war of aggression in Korea.

The appeal noted that due to the policy of aggression and war more feverishly followed by the U.S. and Japanese aggressors and the Pak Jung Hi puppet clique, south Korea has literally turned into an airless and lightless land of darkness of the 20th century, into the worst living hell on earth.

The appeal went on:

Today the south Korean people are dynamically waging an anti-U.S., anti-Japanese and anti-Pak Jung Hi struggle for the right to existence, democratic freedom and the reunification of the country against the colonial, military fascist dictatorship and war policy of the U.S. imperialists and their stooges.

Closely rallied around Comrade Kim Il Sung, the great sun of our nation, and guided by his great revolutionary idea, the immortal *Juche* idea, the south Korean revolutionaries and people of all walks of life are more bravely waging a national-salvation struggle underground, in mountains, towns, villages, prisons and murderous "courts."

The appeal extended the warmest support and militant encouragement to the fighting revolutionaries, workers, peasants, youth and students, intellectuals and people of other strata in south Korea.

Declaring that the prevailing situation urgently requires the south Korean people to unfold a more powerful struggle against the colonial rule of U.S. imperialism and the reinvasion scheme of the Japanese militarists and for the overthrow of the traitorous Pak Jung Hi clique, the appeal called upon the south Korean people as follows:

Unite firm and fight vigorously under the banner of the anti-U.S., anti-Japanese national-salvation struggle if you do not want to see that south Korea occupied by the U.S. imperialist aggressors is reduced even to a colony of the Japanese militarists and if you do not want to fall a victim to the criminal intrigue of the U.S. imperialists to make Koreans fight Koreans and to let Asians fight Asians with the Japanese militarists as a "leader" according to the aggressive scheme of the "Nixon doctrine!"

Comrade Kim Il Sung, the great Leader of revolution, taught: **"There can be neither freedom and liberation for the people in south Korea, nor progress in south Korean society, nor the reunification of our country, unless the U.S. imperialist aggressive troops are driven out of south Korea and U.S. imperialist colonial rule is abolished there."**

Let us fight more stubbornly to drive the U.S. imperialist aggressors, the sworn enemy of our nation, out of south Korea to the last man!

Deal a hundred-fold, thousand-fold heavier retaliatory blows to the U.S. imperialist aggressors for their savage atrocities and give death to them everywhere!

Chop off the crooked hands of the reinvading Japanese militarists through a nation-wide anti-Japanese movement!

The Pak Jung Hi puppet clique are dual lackeys of the U.S. and Japanese aggressors, quislings and atrocious fascist hangmen.

Fight more staunchly to overthrow the Pak Jung Hi puppet clique, the second Li Wan Yong band, and establish a genuine people's power!

Punish the Pak Jung Hi puppet clique, the arch traitors to the nation, in the name of the people!

To oppose the war policy and fascist suppression of U.S. imperialism and the Pak Jung Hi puppet clique and materialize the democratization of society is an important task set before the south Korean people at the present stage.

Smash and frustrate at every step the U.S. imperialists' manoeuvres for igniting another war!

Workers and peasants in south Korea, fight to disrupt the enemy's construction of military bases, production of war supplies and transportation of war materials and to recover your lands and grains taken for military purposes!

Young and middle-aged people in south Korea, categorically reject the forcible puppet army conscription and the forced training of the "homeland reserve force" and fight more valiantly against the troop dispatch to south Viet Nam!

Soldiers of the south Korean puppet army, oppose the shameful service as mercenaries and turn your rifles on the U.S. imperialists and the Pak Jung Hi puppet clique!

South Korean student youth, raise higher the flames of mass struggle against the militarization of schools and forcible military education!

All south Korean people, fight more determinedly against the fascist suppression by the U.S. imperialists and the Pak Jung Hi puppet clique and for winning democratic rights and freedoms including the freedoms of speech, the press, assembly, association, demonstration and strike and for the unconditional and immediate release of all the revolutionaries, patriotic people, youth and students who were unlawfully arrested and imprisoned!

The reunification of the fatherland is the supreme national task which devolves upon us today and the most urgent task the solution of which brooks no further delay.

All turn out as one in a nation-wide battle to realize the country's reunification by the Korean people themselves free from any foreign interference!

To be victorious in all these struggles the south Korean people must arm themselves with the great revolutionary idea of Comrade Kim Il Sung, the genius Leader of revolution.

The revolutionary idea of the great Leader Comrade Kim Il Sung is the perfect *Juche* idea which is a creative application and development of Marxism-Leninism to suit the specific reality of our country; it is the sole leading idea for the Korean revolution and the ever-victorious outstanding idea which brightly illumines the road to the south Korean revolution and the country's reunification.

All south Korean people, arm yourselves firmly with the immortal *Juche* idea of the respected and beloved Leader Comrade Kim Il Sung and, rallied closely around him, fight on more powerfully along the one road to victory pointed out by the Leader!

South Korean people, launch more staunchly the anti-U.S., anti-Japanese national-salvation struggle and the anti-fascist struggle for democratization with a firm conviction of victory in order to bring the day of the triumph of the south Korean revolution and the country's reunification!

The south Korean people's revolutionary struggle will surely win since they have the wise leadership of the great Leader of the 40 million Korean people Comrade Kim Il Sung, the peerless patriot, national hero, ever-victorious iron-willed brilliant commander and one of the outstanding leaders of the international communist and working-class movements, the powerful revolutionary base in the northern half of the Republic, the active support and encouragement of the people in the northern half and the warm support of the revolutionary people the world over.

Fight and fight more staunchly, holding high the banner of the anti-U.S., anti-Japanese national-salvation struggle!

Statement of DPRK Foreign Ministry

Korean People Sternly Warn That U.S. Imperialists and Japanese Militarists Must Never Forget Lessons of History and Must Look Squarely at Reality of Today

The Foreign Ministry of the Democratic People's Republic of Korea issued a statement on June 24 in connection with the fact that Sato, the boss of Japanese militarism, plans to crawl into south Korea on July 1 and Agnew, a fascist warmaniac of U.S. imperialism, also plans to creep in at the same time.

The statement said:

Recently the Japanese militarists under the manipulation of U.S. imperialism are ever more unscrupulously stepping up the criminal machinations to invade Korea and Asia.

According to press reports, Sato, the boss of Japanese militarism, will sneak into south Korea on July 1 under the pretext of attending the so-called "presidential inauguration" of puppet Pak Jung Hi who cooked up his "election as president" at the point of the bayonet and by fraudulence and swindle and Vice-President Agnew, a fascist warmaniac of U.S. imperialism, will also reportedly creep into south Korea at the same time.

This shows with all clarity that the plot and manoeuvre of U.S. imperialism to make revived Japanese militarism take the lead in aggression in Korea and Asia in accordance with the "new Asia policy" based on the notorious "Nixon doctrine" are entering a new dangerous stage.

The Government of the Democratic People's Republic of Korea and the entire Korean people pungently condemn the creeping into south Korea of Agnew, one of the bosses of warmongers of U.S. imperialism, for stepping up manoeuvres for the provocation of a new war against the Democratic People's Republic of Korea and the crawling of Sato, the boss of Japanese militarism, the inveterate enemy of the Korean people, into the southern land of our fatherland with a wicked intention of reinvasion according to the war policy of U.S. imperialism as an intolerable insult and challenge to the Korean people and resolutely denounce their war junket.

As is widely known, the U.S. imperialists paved the way to the reinvasion of south Korea for the Japanese militarists by trumping up the "ROK-Japan treaty" and have more openly promoted their scheme to use the forces of Japanese militarism as a "shock force" in Asian aggression since the publication of the aggressive U.S.-Japan "joint statement."

As a link in this sinister scheme, the U.S. imperialists are daily intensifying the manoeuvres for throwing the Japanese aggressive armed forces into the Korean front, while hastening the modernization of the south Korean puppet army, kicking up the delusive row of the "reduction of the U.S. army" occupying south Korea.

The Japanese militarists mapped out an extremely adventurous war plan to invade the Democratic People's Republic of Korea and are zealously making their way into south Korea with the foolish intention to rule Korea again and, furthermore, realize their old dream of a "Greater East Asia Co-prosperity Sphere" as a reward for their participation and cooperation in the fulfillment of the aggressive plan of the U.S. imperialists to unleash a war again in Korea with south Korea as a forward base and with the Japanese militarist forces as a "shock force."

Recently, for example, the Japanese militarists staged a provocative "U.S.-Japan joint naval exercise" in the East Sea of Korea and groups of officers of the "self-defence forces" of Japan frequent south Korea openly or secretly one after another to have war huddles with the Pak Jung Hi puppet clique.

The coincident tour of south Korea by Agnew and Sato is aimed at putting into practice the iniquitous scheme to complete the joint operation system of the U.S. imperialists, the Japanese militarists and the south Korean puppet clique and directly bring the armed forces, the "self-defence forces," of Japan to south Korea.

The Pak Jung Hi puppet clique are in a frenzy to execute the policies of aggression and war of their masters, as the U.S. and Japanese reactionaries' dual stooge who has betrayed the country and the nation.

The obtaining situation today reminds us of the end of the 19th century when the Japanese militarists sent their huge aggressive armed force into Korea under the pretext of putting down an armed uprising of Korean peasants and started committing armed aggression and interference in Korea and China.

The Japanese militarists, in reactionary alliance with the U.S. imperialists, are now making desperate efforts to restore their old colonial ruling system in Asia, brazenly ranting that not only south Korea but also Taiwan, an integral part of the territory of the People's Republic of China, comes within their "sphere of defence."

Agnew and Sato are to come to south Korea and "representatives" of the Chiang Kai-shek clique and the South Vietnamese puppet clique are also to crawl in at the bidding of their master, the U.S. imperialists, and, in the wake of their south Korean tour, U.S. defence secretary Laird and a group of more than 30 officers of the Japanese "self-defence forces" are to continue confabs for aggression, touring south Korea and Taiwan.

All these facts clearly show that the reactionary conspiracy and tie-up of the U.S. imperialists and Japanese militarists for aggression on Korea and Asia are being promoted at an increasingly fast pace and Japanese militarism is trying more openly to embark upon the road of military aggression.

But, the U.S. imperialists and the Japanese militarists must not run riot.

Korea today is not Korea yesterday and Asia today is not Asia yesterday.

The more undisguised the imperialists become in their manoeuvres of aggression and war, the faster it will hasten the awakening of the people and the fiercer their indignation and resistance will grow.

Now the south Korean patriotic young students and people of broad sections are fighting, declaring that the tour of south Korea by Sato and the officers' group of the Japanese "self-defence forces" will lead to "full-scale economic, political and military advance and colonization by Japan" and strongly demanding that their "entry should not be allowed."

This struggle of the south Korean people is an entirely just, patriotic struggle to uphold national dignity and not to allow south Korea to be reduced to the dual colony of U.S. imperialism and Japanese militarism.

Today the Chinese people and all other revolutionary peoples in Asia are struggling resolutely against the undisguised acts of aggression of the U.S. imperialists and the Japanese militarists.

The Japanese people, too, are strongly denouncing the plan of Sato and the officers' group of the Japanese "self-defence forces" to tour south Korea as "a plot to further strengthen the military alliance of the United States, Japan, south Korea and Taiwan after the signing of the agreement on 'reversion' of Okinawa."

The struggle of the Japanese people is a just struggle against the U.S. imperialists' policy of aggression and the revival of Japanese militarism.

Agnew and Sato must give up their sinister plan of trip to south Korea for a war.

If they, in defiance of the strong opposition of the Korean people and all the peace-loving people of Asia and the rest of the world, crawl into south Korea and hatch a new criminal plot, it will only further hasten the miserable doom of the U.S. imperialists and the Japanese militarists themselves.

The U.S. imperialists must discontinue the schemings to provoke a new war in Korea and quit south Korea at once, taking along their aggression troops and lethal weapons, and the Japanese militarists must give up their foolish design for reinvasion of Korea.

The Korean people sternly warn once again that the U.S. imperialists and the Japanese militarists must never forget the lessons of history and must look squarely at the reality of today.

Spokesman of DPRK Foreign Ministry Issues Statement

Korean People Will Never Tolerate Criminal Manoeuvres of U.S. Imperialists to Further Intensify Hostile Provocative Acts in Demilitarized Zone

The spokesman of the Foreign Ministry of the Democratic People's Republic of Korea issued a statement on June 16 denouncing the U.S. imperialist aggressors who are resorting to a propaganda of political intrigues after producing a so-called "proposal" for "security" in the Demilitarized Zone, its "conversion into crop fields" and the like in an attempt to veil their criminal nature and mislead world public opinion, while madly pushing ahead with their manoeuvres to provoke a new war in Korea.

The statement reads:

The U.S. imperialist aggressors, while frantically hastening their manoeuvres to provoke another war in Korea, are in these days framing a new plot to cover up these criminal acts of theirs and mislead world public opinion.

As already reported, the U.S. imperialist aggressors, alleging that our side was "fortifying" the Demilitarized Zone, resorted to a propaganda of political intrigues, setting forth a so-called "proposal" for destroying the military setups in the Demilitarized Zone and converting this zone into "crop fields" and so forth for "relaxation of tension" there, at the 317th session of the Military Armistice Commission. Synchronizing with this, the Pak Jung Hi puppet clique chimed in, issuing what they call a "statement" and parroted their master.

But this is a very shameless and stupid artifice reminding us of a thief crying stop thief.

The U.S. imperialist aggressors have fortified the Demilitarized Zone as a combat position for an attack on the northern half of the Republic as a link in the whole chain of their new war provocation moves, crudely violating the Korean Armistice Agreement from the very day of its signing, and laid waste all the crop fields there.

The U.S. imperialist aggressors have extensively built such military establishments as batteries, pillboxes, trenches and traffic routes in the Demilitarized Zone, illegally brought heavy weapons including large numbers of tanks, armoured cars and various guns and automatic weapons and are perpetrating almost every day malicious armed provocations against the Democratic People's Republic of Korea, firing bullets and shells at random towards the area of our side and infiltrating armed spies and military personnel into it.

During the first 5 months of this year alone, the U.S. imperialist aggressors brought various types of heavy weapons and automatic weapons into the Demilitarized Zone on 1,060 occasions and fired more than 60,000 rounds of ammunitions of all kinds into the area of our side.

Owing to such vicious provocative acts of the U.S. imperialist aggressors, the situation in the Demilitarized Zone always remains very strained and acute.

This notwithstanding, the U.S. imperialist aggressors put forward, all of a sudden, what they call "proposal" and cry for "security" in the Demilitarized Zone, its "conversion" into "crop fields" and so forth. This is the most preposterous and ridiculous of all.

There is nothing new in the so-called "proposal" advocated aloud by the U.S. imperialist aggressors and it is a question which will be solved of itself only if they give up the violation of the Armistice Agreement they themselves are ceaselessly committing.

As widely known to the world, we have strictly observed the Korean Armistice Agreement all along up to date since the realization of the armistice in Korea and maintained and controlled the portion of our side in the Demilitarized Zone according to the requirements of the Armistice Agreement. From the time right after the armistice, we have allowed the arable land in the portion of our side in the Demilitarized Zone to be tilled and our co-operative farmers reap bumper crops there every year, thus exhibiting a striking contrast to the Demilitarized Zone under the control of the U.S. imperialist aggressors.

All the facts fully prove that the "proposal" noisily advertised by the U.S. imperialist aggressors is motivated by the heinous aim of veiling the criminal acts they are committing in the Demilitarized Zone and, further, wrecking the Armistice Agreement and hastening at accelerated pace the manoeuvres to provoke a new war in Korea.

The Government of the Democratic People's Republic of Korea and the entire Korean people sternly denounce the delusive row of the U.S. imperialists and their stooges as a link in the whole chain of the intrigues premeditatedly framed to find a pretext for undermining and trampling underfoot the Korean Armistice Agreement and igniting a new war.

It is not accidental that today the U.S. imperialist aggressors are attempting to undermine and trample upon the provisions of the Armistice Agreement in the Demilitarized Zone while machinating more viciously to provoke a new war in Korea even by drawing in the Japanese militarists under the cloak of the so-called "Nixon doctrine."

The enemies need it only for further speeding up the preparations for a war.

The Korean people will never tolerate the criminal manoeuvres of the U.S. imperialists to further intensify the hostile provocative acts in the Demilitarized Zone.

The U.S. imperialist aggressors must dismantle all the military establishments they illegally built in the Demilitarized Zone in violation of the Armistice Agreement and take all the heavy and automatic weapons installed there out of the Demilitarized Zone without delay and must stop at once all the hostile acts against the Democratic People's Republic of Korea.

If the U.S. imperialist aggressors persist in their criminal acts of fortifying the Demilitarized Zone into a combat position for attacking the northern half of the Republic, without stopping the propaganda of political intrigues, despite our warnings, they will be held fully responsible for all the consequences arising therefrom.

The U.S. imperialist aggression troops must get out of south Korea at once, taking along all their lethal weapons, so that the armistice may be turned into a durable peace in Korea and the peaceful reunification of the country be brought to realization.

At the sessions on the 24th and 25th heads of delegations and delegates of various countries who made congratulatory speeches in honour of the Sixth Congress of the LSWYK conveyed congratulatory banners and gifts.

The Congress continues.

We Express Militant Solidarity with South African People in Their Just Struggle

June 26 is the "Day of Freedom of South Africa."

On this occasion the Korean people extend firm militant solidarity to the Azanian (South African) people in their struggle against the U.S.-British imperialists and the Vorster racist clique under their active patronage and for the liberation and freedom of the country.

The South African racists are pursuing the brutal apartheid, suppressing the people ruthlessly. They are committing such outrages as arrest, deportation, terrorism and murder everywhere, denying the elementary human rights of the people.

Comrade Kim Il Sung, the great Leader of the 40 million Korean people, taught as follows:

"Where there is oppression, there always is resistance. It is inevitable that the oppressed peoples should fight for their emancipation," (Kim Il Sung, *Selected Works*, Vol. IV, p. 521.)

The Azanian people realized that they could win freedom and national independence only through the decisive struggle against the oppressors, have waged the anti-imperialist, national-liberation struggle with arms in hands since 1961, and brought their armed struggle to new upsurge particularly in 1968.

The armed ranks of the Azanian people have further expanded into a powerful combat force well prepared politically and ideologically. Nor is that all. The people are stepping up their fight against racism and for democracy and the right to existence in the enemy-held areas under the influence of the armed struggle.

The Vorster white rulers, landed in a difficult position by the ever-mounting anti-imperialist, national-liberation struggle of the people in the country, subject people to diabolical repression to maintain their racist rule under the wing of U.S. imperialism. They enacted more than 70 fascist evil laws including "pass laws" and "anti-terrorism law," set up repressive apparatuses in a big way and covered the whole country with armymen, policemen and special agents to completely rob the South African people of all freedoms and democratic rights and outrageously suppress their patriotic activities.

Moreover, the Vorster clique arrest, imprison and kill at random people in Namibia under their illegal occupation. They are making desperate efforts to stamp out the anti-imperialist, national-liberation struggle of the peoples in Zimbabwe, Mozambique and Angola, further strengthening military and political tie-up with the Smith racist gang in Southern Rhodesia and the Portuguese colonialist clique. And they ceaselessly commit the provocations against a number of independent countries in Africa.

The Vorster racist clique perpetrate these criminal acts with the full support, military, political and economic, of the U.S.-led imperialists.

The U.S.-British imperialists have sent a large number of their mercenaries and quantities of modern lethal weapons to the Vorster racist gang and egged them on to put down the liberation struggle of the Azanian people.

As all the facts show, the U.S. imperialists are the author of racism, the ringleader who blocks the way of the Azanian people to freedom and independence and the ferocious enemy of the peoples in Africa and the rest of the world.

The Korean people resolutely denounce the U.S.-led imperialists and racists for their criminal acts and give active support to the Azanian people in their just liberation struggle.

With no amount of last-ditch endeavour can the U.S.-led imperialists and racists ever subdue the fighting Azanian people.

The Azanian people who are enjoying the unanimous support and encouragement of the peoples of the whole world are carrying on the victorious anti-imperialist, national-liberation struggle, courageously pulling through all difficulties in the hard conditions where the enemy's fascist suppression is rife.

The Korean people sincerely wish that the South African people will surely win the brilliant final victory in their just liberation struggle.
